

# ***Mayor Giuliani's WAR against Gun Owners***

## **Giuliani Joins the War on Handgun Manufacturers** *(NY Times, June 20, 2000)*

NYC Mayor Rudolph Giuliani says that his administration will file its own lawsuit against handgun manufacturers, seeking tens of millions of dollars to compensate New York City for injuries and other damages from illegal gun use.

## **Giuliani wants to Require License to have Firearm**

*(Boston Globe, Mar. 21, 2000)*

"My position for many years has been that just as a motorist must have a license, a gun owner should be required to have one as well. Anyone wanting to own a gun should have to pass a written exam that shows that they know how to use a gun, that they're intelligent enough and responsible enough to handle a gun. Should both handgun and rifle owners be licensed...we're talking about all dangerous weapons."

## **Giuliani: Gun Control is Answer to Violence**

*(Speech to Citizens' Crime Commission, Mar. 6, 1997)*

"...we may be able to find some sort of meaning in this tragedy by using it as a catalyst to revive national gun control efforts."

"Yesterday, President Clinton outlined his proposals for more stringent, federal gun licensing requirements. His proposals include: prohibiting non-citizens from buying guns; requiring proof of residency, including photo id. and something like a utility bill in the buyers name... similar to what is required for a drivers license; making cop killer, or Teflon coated, armor piercing bullets illegal; and requiring child safety locks on the weapons of all Federal Officials to prevent these guns from ever winding up in the hands of children. I applaud the President's [Clinton's] proposals, and I will support them any way I can."
