

Dear Senator \_\_\_\_\_;

I oppose “Red Flag” gun confiscation and Universal Gun Registration.

If passed and signed into law, the national “Red Flag” gun confiscation scheme would result in SWAT teams across America raiding the homes of law-abiding gun owners with ex parte orders to seize legal firearms, all because someone anonymously accuses them of being “crazy.”

Universal Gun Registration puts every law-abiding gun buyer into a massive government database, and turns law-abiding citizens into felons if they want to sell a gun to a relative or friend without government permission.

I respectfully urge you to publicly oppose and vote AGAINST any version of the “Red Flag” gun confiscation scheme and Universal Gun Registration.

The National Association for Gun Rights will keep me informed of your actions.

Sincerely,
